

ADVENTURE WRAPPING STYLE

INSTRUCTIONS

*Hello, my name is Jeanine.
Wearing my baby is my everyday routine, it is part of my life, as that's the only way I get things done.
I have been using the Adventure wrapping style since my baby has developed some posture, from about 4 months. This wrapping style is ideal for older babies, when they want to start interacting with the world around them, up until 10kg.*

I advise that you inspect your wrap prior to use for any signs of damage to the material which may compromise the integrity of your wrap. DO NOT USE if damaged.

01

Unwrap your Tulips & Tea baby wrap carrier and find the centre of the wrap by using the label as a guideline.

02

Place the label in the middle of your tummy, just below your breasts.

03

Take the two long pieces of fabric either side of the label in each hand and wrap it around your body towards the back.

04

Cross the fabric in the centre of your back and bring it over each shoulder to the front.

05

Tuck the two long hanging pieces of fabric underneath the horizontal section around your waist.

06

Pull the two hanging pieces tighter for the section around your waist to rise.

07

Cross the two hanging pieces over.

08

I advise that you make a double knot at the end before inserting your babies into the wrap. According to your own preference and size you can either tie it at the back or in the front, on your hip. Make sure that you are comfortable in the wrap before picking up your babies. Even out any areas that might have twisted whilst wrapping and make sure the material passes over the ball of your shoulder from the back towards the front, in order to distribute your babies' weight evenly.

09

Carefully pick up your baby, supporting his or her neck. Your baby should be facing away from you. Put your little one's leg through the piece of fabric closest to your body. Put the other leg through the opposite piece of fabric, resting over your opposite shoulder, ensuring that the material forms an "X" between your baby's legs and on his or her chest. His or her back should be against your body.

10

Ensure the two straps are secured over the shoulders of your baby, pulling him or her towards you. Tuck your little one's legs in whilst pulling the label upwards to secure your baby. You can pull the label up, parallel with your babies' armpits. As this style is for older babies, they like to have their hands and feet out!

I advise that you spread the passes over your own shoulders even more if it is too close to your neck.
